Dear Sir or Madam:

Dear Sir:

My ten years of experience in different areas may be of interest to a constantly growing company like yours.

I have acquired knowledge in different areas, from production, inventories, to personnel management and dealing with customers and suppliers.

I have been able to adapt with good results to all the new job challenges that have come my way.

In March I will be finishing my studies at Holberton School, which have imbued me with the necessary knowledge to be able to work in this industry. But above all they have taught me to learn to learn.

I would appreciate it if you would allow me to show you how I can help your company achieve its goals.

Sincerely,

Marcelo Arbiza
